HOUSTON, TEXAS – July, 2010 – It was announced that Finger Furniture has selected Enterprise Systems Corporation to install an Avaya PBX solution at its newest store location near Willowbrook mall in Houston. The solution consists of an Avaya CS1000E and CallPilot Messaging.

ABOUT ENTERPRISE SYSTEMS CORPORATION

Enterprise Systems Corporation services and supports Avaya voice and data solutions including CS1000, Communications Manager, CallPilot, Modular Messaging, Contact Center, IPOffice and BCM. Competencies include IP telephony (VoIP) LAN/WAN switching, security and wireless engineering and deployment.

ABOUT FINGER FURNITURE

Fingers traces its roots back to the mid-1800's when Sam and Annie Finger started a General Store in Shepherd, Texas, a small rural community about 50 miles north of Houston. In 1925, Sam Finger moved to Houston and in 1927, opened a small store which would lead to the formation of the Finger Furniture Company, Inc. in 1946. Fingers is a proud Houston furniture store with dedicated employees. Rodney Finger, President and CEO, has recommitted the Houston furniture store to the principles Founder Sam Finger, Sr. instilled in the Finger family over 80 years ago and passed from generation to generation. Those principles are simple: offer a huge selection of the best brand names in the industry; sell your merchandise at the best possible price up-front; don't make it hard for your customers to know if they are getting the best deal; treat your customer fairly just as you would want to be treated; and leave your community better off than it is today.
