

# Cradlepoint Failsafe Solution

## Network Uptime Assurance Solutions

### CRADLEPOINT ROUTER FOR 3G/4G LTE FAILOVER CONNECTIVITY ONLY CONNECTED TO OTHER PRIMARY ROUTER WITH TRADITIONAL BROADBAND PRIMARY CONNECTIVITY

### PROTECTION AGAINST FAILURE OF PRIMARY WIRED CONNECTIVITY ONLY

- + Plugs into Ethernet port on existing router (e.g. Cisco, Juniper, etc.)
- + A VPN tunnel can be established by either the primary router or the Cradlepoint router (IBR600 or MBR1400 only)
- + Integrated Enterprise 4G LTE and/or 3G Modems with high-gain external antennas. Designed for better security, higher performance, and 24x7 operation. Support for US and international carriers.
- + Future-proof your network: Single versatile hardware platform supports several carriers
- + Cradlepoint Enterprise Cloud Manager provides zero touch configuration/ deployment, remote management, firmware updates

## CRADLEPOINT COR IBR600 – ARC CBA850

COR IBR600

ARC CBA850
