HOUSTON, TEXAS – November 2, 2008 – It was announced that Marek Brothers Companies has selected Enterprise Systems Corporation to perform extensive upgrades to its voice communications and Local Area Network systems as well as migration to IP Telephony. Enterprise Systems will be upgrading the Houston office to a Nortel CS1000E to accommodate a large expansion plan and provide survivability to all remote locations. The CS1000E will also allow Marek to migrate from digital phones to IP phones at their own pace. The expansion will include 100 new IP telephones working on a Nortel data infrastructure. "Enterprise Systems was selected over AT&T to perform this upgrade and expansion and provide maintenance to all our sites. Since we have upgraded and been provided service on our network, I have been very pleased", said John Bean, Director of IT.

Summary:

Upgrade Houston to CS1000E and expand and upgrade CallPilot.
Install SRG systems at remote offices. All IP endpoints.
Install 5520 Gig Ethernet PoE switches at all locations.

ABOUT ENTERPRISE SYSTEMS CORPORATION

Houston, Texas Based Enterprise Systems Corporation services and supports Nortel voice and data solutions including CS1000, Meridian 1, Succession, CallPilot, Symposium, Contact Center, Meridian Mail, Norstar and BCM.
