ABOUT BOURQUE LOGISTICS

Located in The Woodlands, Texas, Bourque Logistics, Inc. (BL) is an independent logistics software developer and services provider established in 1989. We specialize in software systems for integrated functions for loading/shipping, shipment tracking, freight payment, fleet accounting and supply chain management. We integrate our software using ERP Interfaces that have been developed for dozens of customers using SAP, JD Edwards and custom in-house systems. We process tens of thousands of shipment and freight transactions annually through North America and Canada for more than 70 leading shippers who rely on BL software for their transportation operations.
