CHARLOTTE, NORTH CAROLINA – May, 2014 – It was announced that the Mars Hill University has selected Enterprise Systems Corporation to engineer and deploy an Extreme Networks Wireless LAN system for the campus. The solution includes 30 Dual Radio Access Points.

ABOUT ENTERPRISE SYSTEMS CORPORATION

Enterprise Systems Corporation is a full service Technology Partner, providing consulting, deployment and managed services. Technology products and services include premise and cloud based Voice from Avaya, Mitel and ShoreTel; Wired and Wireless Networking from Avaya, Enterasys, HP, Aruba, Dell and Ruckus; Security from Watchguard as well as cabling infrastructure.

ABOUT MARS HILL UNIVERSITY

Mars Hill University was founded as the French Broad Baptist Institute in Madison County in 1856, in the days leading up to the Civil War. Shortly thereafter, the name was changed to Mars Hill College, inspired by Acts 17:22, which said, "Then Paul stood in the midst of Mars' hill and said, 'Ye men of Athens, I perceive that in all things ye are too superstitious.'" The college was chartered by the State of North Carolina in 1859 following its founding by some dedicated but struggling local families who wanted their children educated and instructed in the Baptist faith. In August 2013, the institution changed its name to Mars Hill University, to reflect the institution's expansion, both in terms of enrollment and variety of offerings.
