HOUSTON, TEXAS AUGUST, 2015 –

Enterprise Systems is proud to announce that Avaya has chosen to reward our commitment, experience, and dedication to customer satisfaction by elevating Enterprise Systems to the level of Platinum Partner.

Achieving Platinum Business Partner status is the highest accreditation for an Avaya business partner. This significant distinction is awarded only to those partners who meet Avaya's demanding assessment criteria across a number of key areas, including technical capabilities, customer service support, and professional certification and revenue targets.

"Our teams in sales, operations and customer support have all contributed to this significant achievement. We are thankful to our end customers for their trust and the opportunity to be their Avaya technology partner. This is a real blessing to this organization and it has been a long time coming" said Rodney Hyde, President of Enterprise Systems.
