HOUSTON, TEXAS – October, 2003 - Enterprise Systems Corporation announced today that a Nortel Networks Hospitality Solution has been successfully installed for Hotel Galvez on Galveston Island, Texas. The installation involved the "forklift" replacement of an aging Fujitsu Starlog 2 with a 600 port Meridian 1 Option 11C, Meridian Mail Hospitality Voce Services and a Symposium Express Call Center.

The owners and management had requested a reliable and robust alternative to the existing Fujitsu. Enterprise Systems proposed a Nortel Networks solution. "Although there were less expensive alternatives in the market, Nortel Networks offered the best value in terms of reliability, functionality, and investment protection. "

ABOUT ENTERPRISE SYSTEMS CORPORATION

Houston, Texas Based Enterprise Systems Corporation services and supports Nortel Networks voice and data solutions including Meridian 1, Succession, CallPilot, Symposium, Meridian Mail, Norstar and BCM. Competencies include TDM circuit switched telephony, VoIP and wireless engineering and deployment.

ABOUT HOTEL GALVEZ

Hotel Galvez, renowned since the early 1900s as the "Queen of the Gulf," has undergone a total renovation to recapture its original glamour while updating the hotel's accommodations and facilities to the latest standards. General Manager Steve Wisner is delighted to share the hotel's renewed glamour with repeat and future guests. "Everyone is pleasantly surprised when they see the amazing transformation of Hotel Galvez," Wisner said. "The entire hotel is being completely refurbished and updated to provide the finest facilities and Wyndham amenities to our guests." Hotel Galvez has been a member of the Wyndham family since June 1998. Hotel Galvez is a Development of George and Cynthia Mitchell.
